Knights Win Two in Row

UB Comes From Behind Twice Tops Yeshiva, Fairfield Fives

by Roger Lefkon

They say that the mark of a good basketball team lies in its ability to come from behind and win. Well, a vastly improved Bridgeport quintet did that twice last week, upsetting favored Yeshiva University, 75-65, on Tuesday, and then overcoming a 13 point half-time deficit to edge its arch rivals, Fairfield University, 59-58, on Friday.

In beating the not-so-mighty Mighty Mites of Yeshiva last week, UB's Purple and White cagers moved into undisputed possession of second place in their final Tri-State League game of the season.

Bridgeport's final league record stands at 3-1.

Trailing Yeshiva throughout the first half, UB, with a late rally, sparked by Vandy Kirk, cut the visitors' lead to one at intermission, 33-32.

The Knights made their move midway through the second half as two driving layups by George Dieter and a steal and layup by Hal Hellerman knotted the score at 49-49. Yeshiva jumped back in to the lead 55-51.

Larry Babich, ailing from a leg injury, made his first appearance in the game and promptly fed Charlie Jessup a court-length pass which Jessup converted to put UB behind by only two, 55-53.

With Yeshiva's Irv Bader showing the way, the visitors edged out in front again, only to have Jessup tie it up on a jump shot with 6:22 remaining.

Seconds later a long one-handed shot by Harry Peters, plus Babich's two foul conversions, put the Knights in front to stay, 61-57.

Paced by Harry Peters, the Knights increased their margin to 71-63 with but two minutes left to play. UB then froze the ball for the remaining time to give them the well earned victory.

Led by the 31 point scoring spree of Harry Peters, 18 coming in the second half, Bridgeport raised its season mark to eight victories as against 11 setbacks. Also very instrumental in Bridgeport's upset win was Hal Hellerman, who was responsible for holding Yeshiva's big gun, Irwin Blumenreich in check throughout the game, as well as contributing 15 points. Irving Bader topped the losers with 26 markers.

The Glinesmen squared off with their perennial rivals, Fairfield University, last Friday evening before a standing room crowd in the UB Gym. The Knights made it two for two this season as they eked out a spine-tingling 59-58 decision over the Stars.

SALK VACCINE FORMS

Permission forms for students under 21, who plan to receive the Salk Vaccine shots on April 4 and May 2, must be returned to the Health Office before March 15.

All faculty, staff and students over 21 do not need the form but must sign up for the shots this week.

The injection will be given on the above dates from 9 to 11:15 a. m. in the Arnold Room of the Gym.

Coeds Told Men's Flats Off-Limits

University officials last week called attention to a long-standing policy forbidding women students from visiting rooms and apartments of men students without approved chaperones.

Dr. Claire Fulcher, counselor for women, and Alfred R. Wolff, director of Student Personnel, said both men and women students who violate this rule will be dealt with according to the degree of the offense.

"This is not a vice campaign," Dr. Wolff stated. "We are not distrustful of University students, but we feel that this law is a definite part of the ethical and moral education the University is attempting to provide."

"We are not going to peek in

windows or knock on doors, for it is the responsibility of the individual to uphold these standards," he added.

Opposition was presented by Bob D'Andrea and Sugar Aronson, Student Council president and vice-president, who objected to the inconveniences that will confront students trying to find places for study, parties and Sunday meals.

Dr. Wolff remarked that the University, as "foster parents" of its students, is obliged to remain static in its interpretation of the rule.

Extreme exceptions will gladly be listened to, he said. Any student wishing to discuss the matter can call on either Dr. Wolff or Dr. Fulcher.

Students Asked To Raise \$1,000 For Hungarians

The Student Council, with the help of IFC and all other student organizations, is sponsoring the campaign for scholarships for two Hungarian refugees.

The scholarships to be given this fall, will provide a four year full tuition of \$5,000 each. The students will have to supply their own room and board. The student body decided that it would raise \$1,000 toward the two scholarships, the remaining amount to be given by the Board of Trustees.

The drive will consist of a person-to-person campaign which will start soon. Student representatives for the drive are Nancy Lazarus, Judy Katz, Phyllis Whitney, Taffy Kropf, and Teddi Rosenberg.

Art Majors Get BA, AB

Inauguration of three new four year programs in art as well as revision of the present two year art program at the University was announced by James O. Jackson, coordinator of the department of art.

The new program will get underway in the fall semester of this year.

Four year programs will include a major in art in the College of Arts and Science leading to the bachelor of arts degree, major in graphic design in the College of Business Administration leading to the bachelor of science degree and a major in art education in the College of Education leading to the bachelor of science degree.

(continued on page 6)

Abe Looks It Over

Dave Johnston, feature editor of the Scribe, shows Gov. Ribicoff a copy of the Scribe's "Safe Driving Issue" in which the Governor presented a personal appeal to University students. The special issue has been entered in a national contest sponsored by the Lumberman's Mutual Insurance Co.

Students, Faculty Alike Eulogize Atty. Goldstein

Harry Allison Goldstein

University students and faculty were shocked to hear of the sudden death of Harry Allison Goldstein, executive secretary of the University Board of Trustees.

Goldstein was to have spoken at the Jacoby Lecture on Feb. 19 but did not appear due to ill health. In less than 48 hours the veteran lawyer was dead. He passed away in Bridgeport Hospital fifteen minutes after he was admitted with a seizure of the heart.

A long time member of the Board of Trustees, Goldstein had practiced law in Bridgeport since he became a member of the Connecticut State Bar in 1911. Only last June he formed a new law partnership under the name of Goldstein, Flynn and Bran-nelly.

Besides his Trusteeship, Goldstein was active in civic affairs. He had been active in the Bridgeport, State and American Bar Associations and had served two terms as president of the Bridgeport Bar Association.

A delegation of faculty and students led by Pres. James H. Halsey attended services for the lawyer and expressed the condolences of the entire University to the Goldstein family.

Panuzio Gives Goldstein's Talk

A University student was called upon this week to fulfill a speaking engagement vacated by the sudden death of University Trustee Harry Allison Goldstein.

Scheduled to speak before the members of The Club Fifty, an organization of the New York liquor industry, at the Empire Hotel in New York City last Tuesday, Goldstein was to have elaborated on brotherhood.

Not wishing to disappoint the New York group and feeling that the spirit of brotherhood should be brought before the public as often as the opportunities presented themselves, Sidney Goldstein, the lawyer's son, asked Nick Panuzio, former president of the Student Council, to fill in for his father.

Panuzio accepted the invitation and explained to the club members how "brotherhood works on the University of Bridgeport campus."

Wistaria Week To Incorporate Gym Dedication

This year's Wistaria Weekend will be the climax of the Gym Dedication Week, according to Albert A. Dickason, assistant professor of dramatics.

Gym Dedication Week, which is to be held from Monday, April 29, through Sunday, May 5, will include a formal dedication of the Gymnasium at the afternoon convocation and unvailing of the plaque listing all the donors to the Gym on Wednesday, May 1. Also scheduled are the Wistaria Ball, which will be held Friday, May 3 and the Wistaria Pageant, which will be held in the Gym on Sunday, May 5.

Dickason stated that this year's Wistaria Pageant will present an athletic aspect to coincide with the dedication of the Gym.

The Pageant will be an inter-departmental affair with the Arnold College of Physical Education, Art Department, Music Department and Campus Productions taking part.

Dr. David Field, director of the Arnold College Division, and Dr. Herbert E. Glines, Athletic Director, are arranging exhibitions and demonstrations which will be presented each evening during the week.

Ice Extends Book Appeal To March 8

Lewis M. Ice, head librarian announced today that the appeal for "Books for Korea" has been extended until March 8.

Ice is reminding all students that if they have any text books and would like to contribute them to "this worthy cause", they may do so by leaving them at the main desk in the library.

The Korean War devastation left the colleges and universities in South Korea without many of their buildings, materials, and books. Ice stated, that now in the process of rebuilding their schools, the Koreans are still unable to acquire the large number of books that will be needed.

Categories of books needed are: history, philosophy, psychology, literature, classics, Asian Studies, art-music, education, comparative religion, anthropology, sociology, science, technology, social welfare, economic, business law, physical education, and geography.

The criteria for selection are university and college level books in good condition, published after 1945. Works by standard authors published before 1945 are also needed. (Examples of standard authors: Dickens, Hawthorne, Hemingway, Plato, W. James, T. Huxley, etc.)

The Asia Foundation which is sponsoring this appeal, pays transportation costs from the University Library to Korea.

LOST and FOUND

Presentation of ID cards will enable the following students to retrieve their articles at the lost and found booth on the second floor of Alumni Hall between noon and 1 p.m., Monday through Friday:

Stan Luby, Jane Dionis, Har-rigan, Carol Pevetty, T. Washal-ehki, B. Sullivan, Patty Rowe, F. E. McCarthy, Dave Johnston, G. Pizzitolo, Walt Landergan, Terry Johanssen, Shirley Sim-mans, Bill Darragh, Jean Cas-sidy, Don Fountain, Barbara Bloom, Adrienne Frank and J. N. Sturges.

COME, COME GIRLS!

In a recent joint announcement from the Office of Student Personnel and the Dean of Women, female students were reminded of a standing University regulation prohibiting their visiting men's apartments at any time.

When the announcement was first made there was a certain amount of irritation on campus in coed circles. Some felt it was an invasion of their privacy, while others regarded it as an insult to their moral character. To this attitude we say... COME, COME GIRLS.

If you actually look into the situation, Dean Fulcher and Dr. Wolff have done nothing more than reiterate verbally a basic part of the University's code of behavior, and we might add reflected in our society's cultural pattern.

In a joint meeting with Dean Fulcher and Dr. Wolff, the Scribe asked questions and got straight answers. Dr. Wolff states quite graphically that the administration does not plan to take up peeping in windows and pulling raids. Both he and Dean Fulcher feel that the women on campus well know how to conduct themselves, all they are asking is that they live up to the "spirit of the code" at all times.

The two administration heads further stated that they are willing to take the situation up in discussion if a revision is needed. In fact, a committee of the Woman's House Government has been formed for that very purpose.

The administration has stated time and again that they are not anti-student and only wish to guide them. They feel, and thank God there still are schools that do, that a university not only trains the mind but also molds the character.

No one has said that our girls have done wrong; no one has said that the administration is going to start an inquisition. All they HAVE said is that girls in men's apartments are in bad taste and they expect University girls to conduct themselves in good taste.

If you are a free thinker and feel that you are a woman about town who can take care of herself, do not go screaming your plight to your fellows... write your dear old Dad... he might be able to change your mind.

"30" AND THANK YOU

We personally never met Harry Allison Goldstein but the more we hear about the late University Trustee makes us wish we had. However, we did have a few phone conversations with the lawyer, in which he gave the Scribe legal advice, and there were a few letters passed between us.

In one of his letters to the Scribe, Mr. Goldstein said "as a former newsman I can appreciate the difficulties of publishing a weekly newspaper, and all the ramifications entailed. Because of this I realize that the Scribe has made definite and considerable progress since its early editions... I wish to congratulate you and your associates on the Scribe for the high degree of perfection which your publication demonstrates."

The Scribe is quite proud of the letter in more ways than one. It is always nice to receive praise from anyone, but when an ex-newspaper man says so you feel good. When Mr. Goldstein said so we felt wonderful.

We have talked with many students and some people on faculty about the man hoping to fill in the items that we missed by not knowing him. There were many stories about him. He helped students with problems, gave advice and time to University developments and so on. We could use up the entire six pages of the paper relating the many instances where Mr. Goldstein proved to be a friend of the University.

When we boiled all the little items into one story that gives a picture of the man, we see a devoted citizen who believed in his community and worked to make it grow. He helped make the University what it is today as well as serving on many civic committees.

He was to have spoken at the Jacoby Lecture a few days ago but was unable to attend. If he had, for we have heard him speak in the past, he would have been the first to praise the spirit of brotherhood expressed by his lifetime friend Frank Jacoby. What he would not have said was that he rated pretty high on the list of brotherhood spreaders himself.

The University family and the Scribe will feel the loss. We do not know what kind of epitaph befits a lawyer, but to an old newspaper man who never forgot a pack of cubs putting out a campus weekly we say... thirty and thank you.

Along Park Place

by Vinny Caprio

"Apartheid," Mr. Webster, in his widely read book, states this word to mean, strict segregation of the races. The so-called government of South Africa is at tempting once again to institute this in its two "open" universities; unless world student opinion prevents it as it has in the past.

Caprio

Several members of Student Council will circulate a petition among UBites voicing their opposition to this plan. It is the opinion of this writer that our signatures should be found on the petition. That is, of course, if you believe God created all men equal, and that a person has the right to an education regardless of his race, creed or nationality. Brotherhood Week may be over but its principles and ideals should be with us throughout the year.

Congratulations to engineering student James Hefferan for capturing the heart of pretty Valia Oraziotti. The lucky lad received a yes to his proposal of marriage. Valia is associated with the Avco Corp., where she and Jim met.

In the latest issue of Sports Illustrated, Alan Merenoff, POC's famous bull dog raconteur (he means story telling, silly) expresses some of his views in a letter to the editor. In a bull of another breed, we hear rumors to the effect that Jack Shanley may be engaged before the week-end is completed.

Tired of doing nothing on a Sunday afternoon? We were too, until we discovered the Playgoer Room of the Westnor in West-

port. This Sunday "Wild Bill" Davison will be featured in a Sunday Jazz session from 5 to 9 p.m. "April in Paris" is a recording that will surely bring "Wild Bill" to mind. Tuesday, March 5, the Westnor will spotlight Sir Sunny Bright and the famous Calypso dancers. Shovan and Selina for all you Calypso music fans. The prices, in case you're wondering, aren't bad.

For the last few weeks we have been trying in vain to announce a pinning but our friend? the printer has consistently seen fit to delete it.

SO LONG DET.

Nothing BARRed

by Dave Barr

Barr

Once again, we return to the crystal ball to discover what lies in store for our growing University in years to come. It has truly come a long way since our arrival. Here is the essence of our spirit and morale—that we may experience maturation as the University matures that we reflect with satisfaction upon the expansion thus far witnessed; and that we anticipate further improvement.

All of the following information consists of statements made by Dr. Littlefield in answer to questions posed by the Student Council representative.

Dr. Littlefield reports that he has received the approval of the Trustees for planning with the architect the erection of a new class room building. This is, tentatively, to be ready for use by the fall of 1958. Furthermore, with Mr. Carlson's consent, Bishop Hall will not be demolished until the new building is ready.

As the image in our crystal ball becomes less discernable we can still envisage a new men's dormitory standing proud and erect upon our campus. A government loan of \$1,500,000 will be needed to realize this dream, and if realized, it shall come to pass in 1959. Not until the following year may we begin to plan for a new Student Union building.

Twice before in these columns, I have taken it upon myself to squash rumors that national fraternities are invading momentarily. I do so again now, only much more emphatically. The policy of our administration and the Board of Trustees is strongly opposed to national fraternity housing on this campus for two reasons:

First, their advent would fabricate new problems (i.e. liquor in the houses) with which we cannot contend in this stage of our development; and second, housing facilities will not be

available. One of the old dorms will be converted into an infirmary, another into a faculty office building.

Moving from the physical to the academic aspect of our growth, we find that at present we can only offer a Master's Degree in education as a graduate program. However, Dean Read is exploring the possibility of offering the same degree in business administration. We are also contemplating the institution of graduate courses in engineering. To pave the way for such a program, the Division of Engineering has been changed to a College and Dr. Berggren has become Dean Berggren. However, it has been made clear that before we institute graduate courses, we must be assured that they will pay for themselves.

Dr. Littlefield also pointed out that a major in chemistry and physics will be offered in the near future. Since new labs are sorely needed and costs in general, will run high, industrial concerns and friends of the University will be asked to subsidize this program.

The cost of living in the new girls' dormitory will rise to pay for the operation of the dorm and the adjoining dining room. Room and board expenses will total \$750 (for resident girls only) as against the \$650 now in effect. Also effective in the fall is a \$30 per semester University fee which will include the following: the Student Activities and Alumni Hall fees, a \$500 insurance policy, a locker and towel fee for those having gym classes, limited health services and various laboratory fees.

Dickason to Spring 'Mousetrap'

Al Dickason, director of the Office of Campus Productions, will bring Agatha Christie's thriller, "The Mousetrap" to the Drama Center boards, March 9.

Although the murder mystery has been playing to packed houses in London for six years, it has had only one showing in this country. Dickason tried it before summer stock audiences last season.

In announcing the leads for this year's spring play, Dickason stated that he chose "The Mousetrap" because he wanted to give local audiences "something new." He felt the piece played so well this summer that it warranted a campus showing.

Leading the cast are Stan Luby, who starred in this year's "Campus Thunder," and Rosalie Printz, dancer turned actress. Luby will be remembered as the playwright in "Thunder '57."

Rosalie Printz is taking her first crack at acting after numerous dancing chores in campus productions.

Prominent roles have been won by Charles Kopin, Betty Lou Leonardo, Edward Callendo, Dick Bock, Jerry Conress and Frances Schein.

Admission will be by tickets which can be obtained by presenting identification cards at the Office of Student Productions.

While announcing the leading players, Dickason also released the names of the technical staff for the play. They are: Charles A. Rasmussen, business manager; John E. Ree, stage manager; Bernard Goldberg, technical director; Marguerite Scott, wardrobe; Jane Shapiro, properties and design; Edward Lucas, lighting and effects; Vincent Falcone, properties assistant; Taffy Kropf,

The making of a mystery is in process but the solution will not be told until March 7 when stars Rosalie Printz and Stan Luby bring Agatha Christie's "The Mousetrap" to the Drama Center stage.

and William Marcus, production assistants; William Bevacus, house manager; Victor Munie, public relations.

Agatha Christie has been thrilling audiences recently with the New York production of "Witness for the Prosecution."

"The Mousetrap" has scored the same success in England as did "Tobacco Road" in this country when the Caldwell play

broke all U. S. records for continuous performances.

Last spring's play, "Dangerous Corner" met with great success among local theater goers when the Priestly thriller packed the Drama Center.

Dickason stated that, with the exception of Luby, the cast for this year's production were without acting experience, although not without acting talent.

Industrial Design Elects Officers

Officers of the southern New England chapter of the Industrial Design Institute elected at a recent meeting on the University campus include: Irving S. Allen, chairman, Hamden; Maurice S. Libson, vice-chairman, New Haven; Douglas Merriles, secretary, instructor of industrial design at University, Edward Conroy, treasurer, of Meriden.

Robert E. Redmann, chairman of the Department of Industrial Design at the University and executive vice president of the National I. D. I., attended the national meeting of the organization in Los Angeles, Feb. 14-17 where he was reelected to office. While in Los Angeles he attended the Design Educators' meeting at the Art Center School.

Accompanying Redmann to the meeting were trustees, John Griswold of New York City and John Vassos of Silvermine Guild of Artists, Norwalk.

WHADDA "BUILT"

Two University students, Joseph Comunale and Robert Darula, have been selected as first and third place winners in the "Mr. Bridgeport" competition, which took place Feb. 1 at the YMCA, associate physical director, John Welahorsky, has announced.

Comunale, a sophomore enrolled in Arnold College, is from

Iselin, New Jersey. A freshman, Darula, from Byram, Conn., is also an Arnold student. Second place winner was Jerry Bator.

Judged on symmetrical proportions, muscular development, general appearance, posing, face and skin, and physical ability, the three were chosen from nine finalists.

Sacsonemen Rout Raybestos But Bow to Fairfield Jebbies

by Larry Babich

The junior Knights defeated the Iona College freshmen Monday night, 84-76, for their 16th win of season. (See roundup of varsity and freshmen games on page 5).

Lou Saccone's yearling cage squad routed Raybestos 102-62 last Wednesday and bowed 93-87 to Fairfield last Saturday to bring its season total to 15-3 with contests left against Iona (played on Monday) and St. Thomas.

Going over the century mark for the second time this season the Knights rolled to a 46-24 half-time lead as Bob Laemel with 10 points and Ed Wysocki, Joe Colello, and Bill Koke with eight each paced the yearlings in the first half drive.

The Industrial League team with George Adam hitting from all sides gave the first year men a slight fight in the second half before the Knights pulled away toward their eventual rout, 102-62.

Colello, playing another fine game on the backboards, scored 19 points hitting nine for 10 from the foul line. Laemel with 16 was runnerup followed by Tony Granger with 14 and Koke with 11. Wysocki, teaming up with Colello under the boards hit for 12 as well as grabbing numerous rebounds.

Playing a return game against the frosh from Fairfield, the Sacconemen looked like a "million dollar" ball club in the first half as they gave all indications of going over the century mark once again running up a 54-43 halftime lead.

Colello with 13 points and Laemel with 12 were the men with "hot hands" and teamwork was the by-word. Granger Wysocki and Bob Mahoney all did their share in contributing to the first half lead that saw the Knights with as big as a 14 point advantage.

In rebounding the Knights controlled both backboards as they outjumped the visitors 25-12 in the first half. Laemel and Wysocki with six each followed by Mahoney and Colello with five apiece showed the way. UB out-shot the Red Stags 37 per cent to 31 per cent in the opening half.

As the second half opened the Red Stags caught fire and paced by Pat Kelly and Joe Czarnota tied the game up and slowly took over the lead with about four minutes to go. Colello and Granger hit for a few baskets but the Stags were too hot to be caught as they shot an amazing 50 per cent to the Knights mere 23 per cent with the home club taking 57 shots to the visitors 32.

Colello maintained his domination over the backboards as he collected 10 in the second half for a game total of 15. Wysocki was second with 13 carooms. "Jumping Joe" also was the top scorer for the second straight game as he notched 20 followed by Laemel with 18, Granger with 16 and Wysocki with 12.

The Knights close their season

this Saturday with a return contest against St. Thomas Seminary on the road. The Knights won the first encounter handily 91-57.

Gals to Begin IM Badminton On March 5

Badminton and volleyball intramurals for women will start March 5 and will be held every Tuesday and Wednesday thereafter from 7 to 10 p. m. in the Gym. All girls are welcome to attend either evening and can sign up with Lee Grimes and Jane Trishman for badminton and volleyball, respectively.

Tryouts and practice sessions will also be held for the Women's State Badminton Tournament, which will take place at the Gym March 16. These sessions will take place from 7 to 10 p. m. Tuesday and Wednesday. Experience is not necessary.

KNIGHTS WIN TWO

(continued from page 1)

A slow and unproductive first period saw the Stags leave the floor at halftime leading 36-23.

Bridgeport's leading point getter, Harry Peters was held to just three foul conversions by Fairfield's versatile captain, Pedro Tagatac.

Storming back for the start of the final 20 minute session the Knights started to click, running up ten straight points while holding Fairfield scoreless. Dick Whitcomb put in a layup to cut the Stag lead to 36 to 35. A beautiful tap in by Hal Hellerman tied it up seconds later, 38-38.

The game continued to seesaw back and forth with Bridgeport edging out in front again on Hellermans two charity tosses, 57-56.

With the scoreboard clock showing 27 seconds to go, Peters was fouled and stepped to the foul line and sank both, free throws to ut UB ahead 59 to 56. A fast Stag bucket closed the gap to one with 9 seconds remaining. Tagatac then smartly fouled Peters, who missed the free throw giving the Stags one last chance to win it.

Following a time out, Fairfield's Mike Mullen drove down the center of the key hole and let go a shot which rimmed the final buzzer sounded. A jubilant UB squad then proceeded to carry Coach Glines off the floor, high above their shoulders.

Five Knights hit double figures in this impressive "team" win. Leading the parade was Jessup with 16. Babich was runner-up with 11, while Whitcomb, Peters, and Hellerman each accounted for ten. Playing his first full game of the season, Dick Whitcomb turned in an outstanding performance while Hellerman and Babich led the Knights in rebounds with 18 and 16, respectively.

Babich, Peters End Hoop Careers

by Roger Lefkon

When the big second hand on the Gym clock sweeps around to zero Saturday night, the playing careers of two of Bridgeport's most colorful hoopsters will come to an end.

They are Harry Peters (5'8") and Larry Babich (6'5") the last of Bridgeport's four year varsity cagers. Both played varsity ball when they were freshmen—which is no longer permitted. Thus they are the last to play four years of varsity ball.

Harry Peters is in the process of rewriting the UB record book. He is currently averaging 20.2 points per game. The record for a UB player is 21.2, held by Alvin Clinkscales. Peters has a chance to better that mark.

His 37 points against Wilkes College this season is the second highest individual game total in the history of UB.

It is just a matter of time before Lou Saccone's one season field goal mark of 170 is broken by Peters who at present has 160 goals.

Harry also stands a better-than-even chance of setting a new record for the most points scored in one season.

In 1950-51 Saccone had 475. To date Peters has 403, and if he maintains his average for the remaining four games he will break this record.

Harry is also in a good position to better Clinkscales' field goal percentage mark of 47.1.

Harry attended Bristol High School where he was a standout basketball star. This year he was captain of the Purple and White cagers.

In the words of his coach, Dr. Herb Glines, "Harry is an all around asset to any team. He gives his all throughout the game and that is all any coach can ask."

Larry Babich, a graduate of DeWitt Clinton High School, a perennial basketball power in New York, was the big surprise of the 1956-57 hoop season.

Larry is currently the club's third leading scorer with an 11 points per game average. His season high of 23 points was against Adelphi College of Long Island. Babich also has to his credit a 40 per cent average from the floor, which is pretty good in any league.

Purple Knights Bow to Iona In Home Finale, 75-65

Grabbing the lead late in the first half, the Iona College "Gaels" fought off three Purple Knight rallies to beat the University cage squad, 75-65, in the last home game of the season.

After the lead changed hands throughout the first half the Knights led at the end of the ten minute mark, 18-14, but the Gaels jumped to a nine point lead, 34-25, at halftime.

With the start of the second half, Hal Hellerman and captain Harry Peters paced the attack but the visitors held on and due to the fine shooting of forward Ralph Savarese, who took scoring honors for the night with a 15-33 point performance, went on to notch their 12th win of the season.

Hellerman paced the Glinesmen with a 22 point total with Peters in the runnerup slot with a 16 point performance.

In the preliminary contest, Lou Saccone's freshman squad copped their 16th win of 19 ballgames by beating the Iona frosh 84-76. Bob Laemel and Ed Wysocki were the big guns for the Sacconemen garnering 24 and 23 points, respectively.

Last night the Glinesmen met Rider College in Trenton, N. J., and tonight travel to East Orange to meet a tough Panzer five. On Saturday night the Purple Knights close out the basketball campaign meeting American International College in Springfield, Mass.

ORDERS TO TAKE OUT

Alpha to Zeta

by Bobbie Blender

Last week KBR's Joe Petrillo was stopped and questioned by a serious officer of the law from Westport—Joe said it was for speeding, but we're beginning to wonder! Who was that coed with you, Joe, and where were you going in such a hurry?

The sisters of Beta Gamma offered their time and effort to the latest cause about campus, the Heart Fund, it is our opinion that UB owes them a vote of thanks for this. This Wednesday the girls will be in Marina Hall from 5:10 to 6:15 for the convenience of those students who wish to sign up for the Polio Vaccine shots.

This weekend the 22nd pledge class of Pi Omega Chi will conclude their activities. On Friday the second rites ceremony will begin at Marina Hall and proceed to the P. T. Barnum statue. (Sounds pretty creepy, wonder what's gonna happen in between!) On Sunday, those people who have survived the rigorous ordeals which will doubtless have taken place, will attend a "brothering up" ceremony followed by one of POC's famous (or is it infamous) parties. Have fun.

Pledging began on Monday of this week for prospective sisters of Chi Zeta Rho, the pledges are: Gail Marks, Pat Lambert, Sheila Genziano, Tami Garay, Lucille Gelade, Dorothy Mikita, Rose DiStefano, and last but by no means last, Eileen (giggles) Goldberg. The pledging period was preceded by a buffet dinner held at Marty Wargo's house. The new girls may be recognized during this week of informal pledging by their blue crescents, white shirts and dark skirts.

The sisters of Theta Epsilon had their annual Rushee cocktail party at the home of Maryanne Hanusovsky this past Sunday; their informal pledging begins on February 26.

Last night SOS began their pledge period for the Spring term. Right now the brothers are having pretty pink visions of not having to wash their own cars. Boys, these visual hallucinations could be serious!

Fencers Tie Brooklyn Poly When Epeemen Get No Match

In an attempt to gain their third victory of the season, the UB fencing team opposed Brooklyn Poly last Saturday at home. However, due to mechanical difficulties the epee team was unable to fence and the match, which ended in a 9-9 tie, was not completed. Although the epeemen were unable to fence, the sabre and foil teams did, and the results were as follows:

Leading the way for the foil-men was Dick Shelby with three out of a possible three points and Dickman was one for three. For the sabre team, it was Lew Alpert and Howie Bader, both with two out of three. Mickey Donahue capped off the scoring with one out of three.

Next week the epee team will

travel to Brooklyn Poly to complete the match which is currently tied up at nine apiece.

Following the completion of Saturday's match, the fencers will return home to play host to Yeshiva on Tuesday. The time for the match is set for 7:30 p. m. in the UB Gym.

ART MAJORS

(continued from page 1)

The two year course in graphic design is designed to prepare the student for participation in advertising design. Graduates of this program may apply credit for these courses toward the four year graphic design program in the College of Business Administration.

What a MATHEMATICIAN can do at IBM

Mathematics is an ancient but ever-advancing science that contains many forms. It shouldn't surprise you then that it took some time before John Jackson discovered the one brand of mathematics that seemed custom-tailored to his ability and temperament. John is an Applied Science Representative, working out of the IBM office at 122 East 42nd Street, N. Y. C.

First of all, what's it all about? What does a fellow like John Jackson do all day? In his own words, "I keep in touch with the executives of many different companies—advising them on the use of their IBM electronic data processing computers. I personally consult with these customers, and analyze their scientific and technical problems for solution by IBM. Occasionally, I'm asked to write papers, and give talks and demonstrations on electronic computing. All in all, it's pretty fascinating... something new pops up every day." In other words, John is a full-fledged computing expert, a consultant... and a very important person in this

The aircraft people decided that they couldn't afford to wait that long, so they called in IBM. After discussion with top executives, John helped to map out a computer program that saved the organization over 100 days

Mapping out a computer program

of pencil-chewing, nail-biting arithmetic. Later, for this same company, John organized the establishment of computer systems for aircraft performance predictions... for data reduction of wind tunnel tests... and for wing stress analysis. At the same time, he worked with this company's own employees, training them in the use of IBM equipment. John still drops around to see that everything is running smoothly.

Another service that John performs is the constant reappraisal of each customer's IBM operation. Occasionally, a customer may tie himself in knots over a procedural "stickler." Periodically, in fact, John brings IBM customers together... just to talk over what's happening in each other's business—how everybody else handled that old bugaboo in any industry... details.

New field for Mathematicians

John is exercising his mathematical know-how in a field that was practically unheard of ten years ago. Even now, this kind of work may be news to you. It was to John Jackson a few years back when he was an undergraduate at the University of Colorado. At that time, he was considering actuarial work or mathematical research. But John liked the excitement and diversification of science and industry and he wanted to use his

mathematical background in both of those areas. It was not until he was interviewed by IBM that field computing whetted his scientific appetite. A few months later, John launched his own IBM career as an Applied Science trainee.

Promotionwise, John has come a long way since that time. He's now an Applied Science Representative in one of the busiest, most responsible offices in the IBM organization... mid-town Manhattan.

With his wife, Katherine, and daughter, Lisa, 20 months, and John,

Discussing a problem with colleagues

Jr., 6 weeks, he enjoys his suburban Port Washington home. He's happy and he's satisfied. And then, too, John knows a few vital statistics about IBM... such as the fact that the Applied Science Division has quadrupled during the past three years, and that in 1956 alone, over 70 promotions were conferred. If ever a future held promise, here is one.

IBM hopes that this message will help to give you some idea of what a mathematician can do at IBM. There are equal opportunities for E.E.'s, M.E.'s, physicists and Liberal Arts majors in IBM's many divisions—Research, Product Development, Manufacturing Engineering, Sales and Technical Services. Why not drop in and discuss IBM with your Placement Director? He can supply our latest brochure and tell you when IBM will next interview on your campus. Meanwhile, IBM will be happy to answer your questions. Just write to Mr. P. H. Bradley, IBM, Room 8701, 500 Madison Ave., New York 22, N. Y.
